

Sigma Institute of Engineering (050) Holi Celebration 2017

One of the major festivals of India, Holi is celebrated with enthusiasm and gaiety on the full moon day in the month of Phalgun which is the month of March as per the Gregorian calendar. Holi festival may be celebrated with various names and people of different states might be following different traditions. But, what makes Holi so unique and special is the spirit of it which remains the same throughout the country and even across the globe, wherever it is celebrated.

As it is known by all that Holi is the only festival for which majority of the peoples eagerly waits for its arrival. On the auspicious occasion of the holi festival we students and faculties enjoys a lot on spraying colour and colourful water on each other.

Our College management announced the Holi celebration at college premises, on 11-3-2017 and asked all students to come to college for celebrating this festival after 11:35 AM in campus. The celebration arranged at college amphitheatre and also at currently constructed swimming pull behind amphitheatre, all colours and water balloons are kept by students with them, there for use during the celebration. We also arranged DJ on that day. The entire celebration went for two hour and all of us have enjoyed it a lot.

Truly the Festival of Colours brought along togetherness among the students themselves, juniors to seniors and that was something I enjoyed watching. Thank You SIGMA family for organizing such a joyous occasion!. Here are some memories of celebration by degree faculties and students.
